INVESTMENT OBJECTIVE AND STRATEGY

UCMF seeks to prevent loss of principal at all times by investing in deposits in local banks. It also aims to surpass its benchmark which is the HSBC Money Market Index. This should not be construed, however, as a guarantee of yield.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her/their investment objective and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- the UCMF is suitable only for investors who:
 - have a risk profile of conservative based on the results of the accomplished Client Suitability Assessment Form;
 - has an investment perspective which is short term in nature and willing to put all his/her/their money only in time deposits;
 - are willing to forego the higher long term returns generated by riskier investment; and
 - understands the risks of investing in products which are non-deposit, non-bank and with no recourse to the Bank.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

- Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a deposit issuer's failure to pay principal and/or interest in a timely manner on deposit instruments.
- Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.
- Reinvestment Risk. This is associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of the funds are reinvested.

TBG strictly adheres to the investment outlets as stated in the Fund's Declaration of Trust. Exposure limits and asset allocation is closely monitored on a regular basis. All counterparties and investment outlets underwent thorough evaluation and accreditation in accordance with the Trust Manual of Operations, Policies and Guidelines.

OTHER DISCLOSURES

RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper and with UCPB Savings Bank, a wholly-owned subsidiary of the Bank, amounting to P20.25mn and P43.44mn, respectively, which were approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

BSP kept the reserve requirement of banks, over-night borrowing rate and Special Deposit Account (SDA) rate steady at 20%, 4%, and 2.50%, respectively. The BSP's move was made on the back of a very benign inflation outlook and favorable growth prospects.

Headline inflation eased to a 20-month low in April to 2.2% from 2.4% in March due to stable food, fuel and electricity prices.

Remittances for March surged by 11% -- the fastest growth since Dec. 2009 -- to USD2.3 billion. Total inflows for the first three months of the year have now reached USD6.4 bn, 5.2% higher versus the same period last year.

1Q 2015 GDP grew by 5.2%, the slowest pace in more than three years. The slowdown was mainly due to continued underspending by the govt. and weakness in exports.
