INVESTMENT OBJECTIVE AND STRATEGY

UCMF seeks to prevent loss of principal at all times by investing in deposits in local banks. It also aims to surpass its benchmark which is the HSBC Money Market Index. This should not be construed, however, as a guarantee of yield.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her/their investment objective and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- the UCMF is suitable only for investors who:
 - have a risk profile of conservative based on the results of the accomplished Client Suitability Assessment Form;
 - has an investment perspective which is short term in nature and willing to put all his/her/their money only in time deposits;
 - are willing to forego the higher long term returns generated by riskier investment; and
 - understands the risks of investing in products which are non-deposit, non-bank and with no recourse to the Bank.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

- Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a deposit issuer's failure to pay principal and/or interest in a timely manner on deposit instruments.
- Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.
- Reinvestment Risk. This is associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of the funds are reinvested.

TBG strictly adheres to the investment outlets as stated in the Fund's Declaration of Trust. Exposure limits and asset allocation is closely monitored on a regular basis. All counterparties and investment outlets underwent thorough evaluation and accreditation in accordance with the Trust Manual of Operations, Policies and Guidelines.

- **THE UITF IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC)**
- **RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS AND FLUCTUATIONS ONLY**
- **WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE**

OTHER DISCLOSURES

RELATED PARTY TRANSACTION

The Fund has deposits with the Bank Proper and with UCPB Savings Bank, a wholly-owned subsidiary of the Bank, amounting to P9.02mn and P146.72mn, respectively, which were approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

Despite slower growth, the Monetary Board opted to keep its key rates unchanged. The MB believed that there is underlying strength in the economy and that current rates are still appropriate. The overnight borrowing rate, reserve requirement of banks and SDA rate stayed at 4%, 20% and 2.50%, respectively.

Headline inflation slowed further in July to 0.8% compared to 1.2% in June on lower oil and electricity prices and ample food supply.

Remittances from Filipinos abroad grew 5.8% in June to US\$2.4bn, the largest monthly inflow in the last six months. Remittances should increase by 6% this year to around USD28.6bn.

The economy expanded by 5.6% in 2Q15, slightly faster compared to the 5.0% growth achieved during the previous quarter. The 2Q growth was driven by domestic demand particularly household spending and construction. We expect govt. spending to accelerate in the coming months.

The UCMF continues to provide attractive returns to investors. As of end August, its annualized net return is 1.55%, better compared to an ordinary time deposit.
