INVESTMENT OBJECTIVE AND STRATEGY

UCMF seeks to prevent loss of income at all times by investing in deposits in local banks. It also aims to surpass its benchmark which is the HSBC Money Market Index. This should not be construed, however, as a guarantee of yield.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her/their investment objective and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- the UCMF is suitable only for investors who:
 - have a risk profile of conservative based on the results of the accomplished Client Suitability Assessment Form;
 - has an investment perspective which is short term in nature and willing to put all his/her/their money only in time deposits;
 - are willing to forego the higher long term returns generated by riskier investment; and
 - understands the risks of investing in products which are non-deposit, non-bank and with no recourse to the Bank.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

- Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a deposit issuer's failure to pay principal and/or interest in a timely manner on deposit instruments.
- Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.
- Reinvestment Risk. This is associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of the funds are reinvested.

TBG strictly adheres to the investment outlets as stated in the Fund's Declaration of Trust. Exposure limits and asset allocation is closely monitored on a regular basis. All counterparties and investment outlets underwent thorough evaluation and accreditation in accordance with the Trust Manual of Operations, Policies and Guidelines.

OTHER DISCLOSURES

RELATED PARTY TRANSACTION

The Fund has deposits with the Bank Proper and with UCPB Savings Bank, a wholly-owned subsidiary of the Bank, amounting to P2.9mn and P127.2mn, respectively, which were approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

November inflation rose to 2.5% on higher prices of food, fuel and electricity. Despite an uptick in inflation, the BSP still kept its key rates unchanged. Its overnight lending and deposit rates remained steady at 3.5% and 2.5%, respectively.

Meanwhile, OFW remittances contracted in October by 2.8% to USD2.3 billion. For the 1st 10 months of the year, remittances grew by 3.1% to USD24.4 billion from USD23.7 billion in the same period last year.

The BSP's overnight and term deposit facilities (ODF and TDF) continue to attract liquidity given its premium over ordinary time deposit rates. But despite this demand Term Deposit Facility (TDF) rates have inched higher, a reflection of the prevailing rising interest rate environment. From a nominal starting rate of 3.0%, the 7- and 28-day TDF rates ended the year at 3.0441% and 3.4646%, respectively.
