**INVESTMENT OBJECTIVE AND STRATEGY**

UHDF seeks to provide long-term growth of capital appreciation and steady income stream through investments in domestic, listed common and preferred shares. It also aims to surpass its benchmark (gross of fees) which is the Philippine Stock Exchange Index (PSEi). This should not be construed, however, as a guarantee of yield.

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her/their investment objective and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- the UHDF is suitable only for investors who:
  - have an aggressive risk profile based on the results of the accomplished Client Suitability Assessment Form;
  - are willing to dedicate a small portion of their portfolio, preferably excess funds, for at least 18 months with a high level of return and corresponding risk on an equity portfolio; and
  - understands the significance of fluctuating unit prices and that any income/loss arising from market volatilities and price fluctuations is for client's account.

## OTHER DISCLOSURES

### RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper amounting to P53k which was approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

### OUTLOOK AND STRATEGY

The PSEi gained by a mere 0.88% in December holding above the 6,800 level as foreigners continue to exit the market. The Fed's on-going tightening cycle, potential policy changes under a new U.S. administration, and a weak peso have all weighed down on the market. The PSEi ended the year with a slight loss of 1.6%.

We expect trading to be thin at the start of 2017 due to lack of fresh leads.
