INVESTMENT OBJECTIVE AND STRATEGY

UCMF seeks to prevent loss of income at all times by investing in deposits in local banks. It also aims to surpass its benchmark which is the 30 Day Special Savings Rate. This should not be construed, however, as a guarantee of yield.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her/their investment objective and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- the UCMF is suitable only for investors who:
 - have a risk profile of conservative based on the results of the accomplished Client Suitability Assessment Form;
 - has an investment perspective which is short term in nature and willing to put all his/her/their money only in time deposits;
 - are willing to forego the higher long term returns generated by riskier investment; and
 - understands the risks of investing in products which are non-deposit, non-bank and with no recourse to the Bank.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

- Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a deposit issuer's failure to pay principal and/or interest in a timely manner on deposit instruments.
- Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.
- Reinvestment Risk. This is associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of the funds are reinvested.

TBG strictly adheres to the investment outlets as stated in the Fund's Declaration of Trust. Exposure limits and asset allocation is closely monitored on a regular basis. All counterparties and investment outlets underwent thorough evaluation and accreditation in accordance with the Trust Manual of Operations, Policies and Guidelines.

- **THE UITF IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC)**
- **RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS AND FLUCTUATIONS ONLY**
- **WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE**

STATISTICS

Volatility, Past 1 Year*	0.56%
Sharpe Ratio**	-0.07
Information Ratio***	0.02

* Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time.

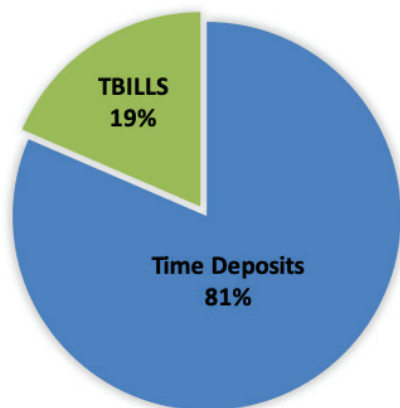

** Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

*** Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

OTHER DISCLOSURES

RELATED PARTY TRANSACTION

The Fund has deposits with the Bank Proper amounting to Php 8.47M, which were approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

Yields of the 3-month and the 6-month T-bill fell in September as investors took profit on long-dated securities and shifted to short-dated ones. Inflation expectation remains benign with the Bangko Sentral ng Pilipinas (BSP) projecting September inflation to settle within the 0.60-1.40% range. The recent increase in fuel prices and uptick in selected food prices could offset decline in rice prices and electricity rates. September inflation figures set to be out on October 4.

The BSP cut overnight interest rates by 25bps last September 26 bringing the overnight policy rate to 4.00%. The move marks the third cut done this year after the 25bps cuts in May and August 2019. Further, the BSP cut bank reserve requirement by 100bps to take effect November. This is after BSP implemented 200bps reduction from May to July 2019. Reserve Rate Requirement (RRR) for universal and commercial banks, thrift banks, and rural banks stand at 15%, 5%, and 3% respectively.
