OTHER DISCLOSURES

RELATED PARTY TRANSACTION

The Fund has deposits with the Bank Proper amounting to Php78K, which were approved by the Board of Directors. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

Yield of short-dated and long-dated government securities increased on a month-on-month basis. The 3 month tenor was posted at 3.286 from 3.077% last month while the 6 month tenor was posted at 3.505% from 3.390% last month.

On the macroeconomic front, the BSP continued to provide liquidity to the system by reducing its policy rates by 50 basis points and the banking industry's reserve requirement by 200 basis points to help the government in mitigating the negative impact of the pandemic. These in turn should continue to keep short term rates lower.
